DETAILED ACTION

Continued Examination Under 37 CFR 1.114

A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 15 May 2006 has been entered.

This action is on claims 24-37.

Rejections Withdrawn

Claim Rejections - 35 USC § 112

The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

Claims 7, 8, and 10 were rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to

Art Unit: 1648

one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention.

The claims were canceled and the rejection is moot.

Claim Rejections - 35 USC § 102

Claims 7, 8, and 10 were rejected under 35 U.S.C. 102(b) as being anticipated by Rizvi *et al.* (IDS).

The claims were canceled and the rejection is moot.

Claims 7, 8, and 10 were rejected under 35 U.S.C. 102(e) as being anticipated by Lauermann (US 6635472).

The claims were canceled and the rejection is moot.

Claim Objections Withdrawn

Claims 24-26 are objected to because of the following informalities: they depend from a rejected claim. Appropriate correction is required.

Applicant has amended the claims and the objection is withdrawn.

New Rejections

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 25 and 27 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

The terms "the region", "the 5" major splice donor site" and "the gag initiation codon" lack antecedent basis. The terms even without the "the" are not clear. The metes and bounds of the terms are not clear because it is not clear what they are from or where the region is located relative to the packaging signal.

Allowable Subject Matter

Claims 24, 26, and 28-37 are allowed.
